

Checklist: How To Recreate A Course Like The VUB Courses

Purpose

Use this as a practical build checklist for recreating a course like the VUB Intermediate Computer Skills or Financial Readiness courses.

Phase 1: Define The Course

- ☐ Name the course.
- ☐ Define the target audience.
- ☐ Identify what students already know.
- ☐ Identify what students should be able to do by the end.
- ☐ Decide course length: weeks, modules, or one-day workshop.
- ☐ Decide whether the course must work offline.
- ☐ Decide whether students need printed materials.
- ☐ Decide what data must be reported.

Phase 2: Define Reporting Needs

- ☐ Decide whether reports are for individual students, program staff, leadership, or all three.
- ☐ Decide whether results need to be grouped by site, county, instructor, cohort, or date.
- ☐ Decide whether student names can be collected.
- ☐ Choose a student identifier strategy.
- ☐ Define pre-test and post-test categories.
- ☐ Decide whether each question needs an answer key.
- ☐ Decide whether reports must be printable PDFs.

Phase 3: Build The Curriculum Map

- ☐ Create a module or weekly outline.
- ☐ Write learning objectives for each session.
- ☐ Estimate timing for each activity.
- ☐ Identify hands-on practice tasks.

- ☐ Identify discussion prompts.
- ☐ Identify handouts needed.
- ☐ Identify instructor guide sections.
- ☐ Map each assessment question to a course category.

Phase 4: Build Course Materials

- ☐ Create the course launch page.
- ☐ Create one presentation page per week or module.
- ☐ Create printable handouts.
- ☐ Create instructor guides.
- ☐ Create pre-test and post-test questions.
- ☐ Create answer keys if needed.
- ☐ Create printable versions of assessments if needed.
- ☐ Add clear links between the course page and all resources.

Phase 5: Choose The Assessment Model

Option A: Custom HTML Assessment

Use this when the priority is immediate student feedback.

- ☐ Build the assessment as an HTML page.
- ☐ Store questions and answer keys in JavaScript.
- ☐ Score the assessment in the browser.
- ☐ Show category breakdown.
- ☐ Create a print-ready report section.
- ☐ Add a Print Report button.
- ☐ Test save-as-PDF in the browser.

Option B: Google Forms Assessment

Use this when the priority is centralized reporting.

- ☐ Create a Pre-Test Google Form.
- ☐ Create a Post-Test Google Form.
- ☐ Enable quiz mode if automatic scoring is needed.
- ☐ Link each Form to a Google Sheet.
- ☐ Add site, cohort, instructor, and date fields if needed.
- ☐ Add Form links to the course website.
- ☐ Test a fake student submission.

- ☐ Confirm the response appears in the Sheet.

Phase 6: Build Reports

- ☐ Create a raw responses tab.
- ☐ Create a scoring tab.
- ☐ Create a category summary tab.
- ☐ Create a pre/post comparison tab.
- ☐ Create filters for location, instructor, cohort, and date.
- ☐ Create charts if leadership needs a visual report.
- ☐ Create a PDF export process if needed.
- ☐ Decide who owns and maintains the reporting Sheet.

Phase 7: Make It Accessible

- ☐ Use large readable fonts.
- ☐ Maintain strong color contrast.
- ☐ Do not rely on color alone.
- ☐ Use clear headings.
- ☐ Use plain language.
- ☐ Keep instructions step-by-step.
- ☐ Make keyboard navigation possible.
- ☐ Test printed handouts.
- ☐ Avoid cluttered screens.

Phase 8: Test The Course

- ☐ Open the course homepage.
- ☐ Check every lesson link.
- ☐ Check every handout link.
- ☐ Check every assessment link.
- ☐ Submit a fake pre-test.
- ☐ Submit a fake post-test.
- ☐ Confirm scoring works.
- ☐ Confirm reports are accurate.
- ☐ Print or save a sample PDF.
- ☐ Test on the classroom browser.
- ☐ Test on a backup browser if possible.

Phase 9: Package For Delivery

- ☐ Create an online version if needed.
- ☐ Create an offline folder or flash-drive version.
- ☐ Include all handouts and PDFs.
- ☐ Include the instructor guide.
- ☐ Include a setup checklist.
- ☐ Include assessment links.
- ☐ Include backup printable assessments.
- ☐ Verify the package opens on a different computer.

Phase 10: Maintain And Reuse

- ☐ Keep one master copy of the course.
- ☐ Keep one reusable question bank.
- ☐ Keep one reusable Google Forms setup process.
- ☐ Keep one reporting template.
- ☐ Document what files can be edited safely.
- ☐ Document who owns Forms and Sheets.
- ☐ Review dates, links, and policy-sensitive content before each new cohort.

Simple Replication Formula

```
Audience + Outcomes
|
v
Curriculum Map
|
v
Slides + Handouts + Instructor Guides
|
v
Pre-Test + Post-Test
|
v
Google Forms / Sheets Or Custom HTML Reports
|
v
Tested Course Website
|
v
Online Launch + Offline Backup
```

Recommended Minimum Template

For each new course, create:

- `index.html` or course launch page.
- One page per lesson/module.
- One instructor guide.
- Two to four handouts per course or module.
- Pre-test.
- Post-test.
- Answer key.
- Google Form response Sheet.
- Summary report tab.
- Offline backup copy.
